

# Justin Wested

## Front End Developer

### SUMMARY

Experienced software engineer with strong technical troubleshooting skills and a track record of providing exceptional service. Seeking a dynamic role that utilizes technical expertise, interpersonal skills, and analytical abilities to drive innovation and business growth.

### EXPERIENCE

#### Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Developed prototypes, built wireframes, and created responsive web development projects.
- Developed and maintained well-structured, reusable, and efficient front-end code in HTML, CSS, and JavaScript to create visually appealing and intuitive websites.
- Utilized content management systems (CMS) like WordPress for building customizable and easy-to-update websites.

#### Recent Projects:

**Ace Animation (Animation Studio Website)** – Full portfolio website for animation studio client. Fully integrated WooCommerce platform. Custom WP Block Theme built specifically for client. Created easy to update backend for non-technical users to make additions in future.

**Kickball Comedy (Los Angeles Comedy Group Website)** – One page site built for group to have all of their information in a single, easy to access place. A simple one page layout combined with quirky and artistic design to create a page that matches their aesthetic.

**Visionrey Entertainment (LA based Production Company Portfolio/Sales site)** – Large website built for production company to show off their wide portfolio of options and projects. Integrated payment processing and mailing list functionality

**April Yanko (Actress Portfolio)** – Portfolio website for multi-hyphenate actress. Over a dozen pages built to accommodate their many projects. Biggest challenge making the site fast and responsive while also having lots of pictures and video.

#### Autonomous Vehicle Test Engineer at Argo AI, Pittsburgh, PA

December 2017 — December 2019

- Conducted over 4000 hours of testing and troubleshooting autonomous vehicle software.
- Collaborated with cross-functional teams to identify and resolve issues, resulting in a 25% reduction in system downtime.

#### Pharmacy Benefits Manager CVS Caremark, Pittsburgh, PA

May 2017 — December 2017

- Coordinated prescription benefits for 2,000+ members, increasing satisfaction by 20% and reducing call handling time by 15%.
- Consistently met or exceeded weekly/monthly goals, recognized as top-performing by clients and employers.

#### Tier 2 Support Rep at InShore Technologies , Johnstown, PA

April 2016 — May 2017

- Installed new hardware and software for 400+ workstations, servers, and peripherals, ensuring seamless integration with existing systems.
- Resolved technical issues and ensured timely delivery of equipment and services with vendors and contractors, resulting in over 100 issues resolved within SLA.

#### Program Lead at InterMedia Marketing Solutions, Johnstown, PA

August 2012 — February 2016

- Developed and implemented action plans and coaching lessons for a team of over 100 sales agents, resulting in a 30% increase in agent performance and customer retention.
- Led and managed a team of sales agents to meet and exceed monthly sales and retention goals, resulting in a 25% increase in revenue and customer satisfaction.
